

SPONSORSHIP

Sponsorship Tiers	Sponsorship Amount (NPR.)	Free Registration	Free advertisement
Bronze Sponsor	2,00,000	2 participants	Half page color, name displayed as bronze sponsor with benefits of Bronze sponsor
Silver Sponsor	5,00,000	5 participants	Half page color, name displayed as silver sponsor with benefits of Silver sponsor
Gold Sponsor	8,00,000	8 participants	Full page color, name displayed as gold sponsor with benefits of Gold sponsor
Diamond Sponsor	10,00,000	10 participants	Full page color, name displayed as diamond sponsor with benefits of Diamond sponsor
Platinum Sponsor	15,00,000	15 participants	Full page color, name displayed as platinum sponsor with benefits of Platinum sponsor

REGISTRATION

CATEGORY	REGISTRATION FEE
Members of NEA	NPR. 5,000.00
Non-Members	NPR. 6,000.00
Institutional Participants	NPR. 7,000.00

Note: It is mandatory to register with full payment before the event.
The registration fee covers lunch, dinner, kit bags, souvenirs and journals.

Please Login/Register and purchase Tickets via online system at <https://16thneaconvention.neanepal.org.np/>

TAKE AWAY

After two days of intensive knowledge sharing and discussion, the convention will formulate a resolution titled "Engineering for National Prosperity and Effective Governance." This resolution will be based on the ideas, perspectives, facts, data and evidence presented by the authors and speakers during paper presentations, as well as through extensive discussions, comments and feedback from the participants.

This resolution will be proposed for adoption by government entities at all levels. It aims to contribute to government policy development by leveraging the insights and recommendations generated through the conference resolutions.

16th NATIONAL CONVENTION OF ENGINEERS
JANUARY 03-04, 2024

Engineering for National Prosperity and Effective Governance

SUBTHEMES OF CONVENTION

- Engineering Leadership for Effective Governance
- ICT for Innovation and Technology Convergence
- Resilient & Sustainable Infrastructure
- Green Energy and Energy Security
- Gender Issues in Engineering
- Technological Innovation in Construction Industry
- Nepal's Engineering Dilemma: A Roadmap to Solution

16th NATIONAL CONVENTION OF ENGINEERS

INAUGURATION CEREMONY:
January 03, 2024

CLOSING CEREMONY:
January 04, 2024

Dear Engineers and Architects,

You're cordially invited to join us for the 16th National Convention of Engineers, a momentous occasion hosted by the Nepal Engineers' Association (NEA). This remarkable event is scheduled on January 03-04, 2024 and we are delighted to extend an invitation to you.

This convention is a global congregation that brings together engineers and architects from various fields across Nepal, all under one roof. It's a celebration of the engineering community and an opportunity to promote and foster the spirit of engineering excellence. We assure you that this year's convention will be even more magnificent and influential than ever before.

The challenge is to integrate engineering expertise with leadership roles to promote prosperity and enhance effective governance. At the highest levels of leadership and management levels, technical expertise is lacking, with administrative staff predominantly handling. This highlights the need for a comprehensive engineering approach to support national prosperity and governance. Collaboration is crucial to tackle engineering challenges and achieve sustainable prosperity and efficient governance. So, the 16th National Convention of Engineers has adopted the theme, "Engineering for National Prosperity and Effective Governance," to emphasize the significant role that engineering plays in shaping a nation's future and facilitating efficient governance.

This theme highlights engineers' contribution to economic growth, infrastructure design, societal problem-solving and streamlined government processes. It also addresses climate change, inclusivity, equity and green energy through engineering. Prioritizing engineering excellence and effective governance is vital for a prosperous and resilient nation.

We look forward to your presence at this prestigious gathering, as your participation will certainly enrich the event. Save the date and let's make this convention a resounding success together.

CALL FOR PAPERS

We invite engineering professionals from various sectors, including Industries, Academic Institutions, Research and Development Organizations, Government Departments and Entrepreneurs, to submit papers related to the main theme and sub-themes of the Convention across all engineering disciplines. These papers should primarily aim to share experiences, concepts, innovative ideas, research findings and other relevant insights.

Kindly register and submit your papers via the online system at <https://16thneaconvention.neanepal.org.np/>

Last date for Abstract Submission: December 10, 2023
Last date of Full Paper Submission: December 20, 2023

Venue: Nepal Academy, Kamaladi, Kathmandu
We kindly request the presence and active participation of all engineers to contribute to the success of the 16th National Convention of Engineers.

PARTICIPATION

All the engineers and architects are heartily welcome in the convention. The event expects to be an enlightening and impactful gathering of engineering professionals, foreign delegates, leaders, experts, practitioners, academicians, researchers, policymakers and stakeholders. This huge gathering of engineers makes a landmark event scheduled for January 03-04, 2024.

OBJECTIVES

The primary objective of the 16th National Convention of Engineers is to provide a platform where veteran, young engineers and architects, Academicians, Business Professionals and experts from various engineering sectors can convene. This event aims to contribute to national development and effective governance, raise awareness about the crucial role of engineering in achieving national prosperity and effective governance and engage in meaningful discussions about the engineering sector's future.

Overall, the mega event helps promote:

- Showcasing engineering norms, culture, and values nationally and globally
- Attracting international engineering institutions and delegates
- Facilitating networking with global guests
- Addressing critical engineering and architecture issues
- Promoting bilateral cooperation
- Enhancing engineering welfare
- Contributing to national development
- Boosting Nepal's tourism
- Knowledge sharing and tech transfer
- Exchanging professional ideas
- Supporting government policy development through conference resolutions
